

FOR COTATI CITY COUNCIL

GEORGE BARICH

Age: 66

Occupation: Licensed Contractor

Cotati City Hall is a complete and utter disaster plagued by: the highest sales tax rate, fraudulent city budgets, costly city borrowing through issuing municipal bonds, a dangerous and aging public infrastructure, a crumbling water and sewer system, silly public workshops about defunding our police, higher and higher city salaries and retirement benefits, four-day work week for city staff, a war on our homeless, repeated violations of our civil rights (so say two federal judges), millions paid out to city attorneys and out-of-court settlements, and the complete weaponization of Cotati Code Enforcement team who goes after anyone who threatens the status quo in power.

City Hall needs to be investigated by the FBI and Sonoma County Grand Jury before Cotati is forced to merge with Rohnert Park. There is no state or federal grant money to bailout our tiny town, silly traffic roundabouts, or a downtown facelift costing over 100 million dollars. Let's stop the nonsense. Our little government is flat broke and has not saved one dollar for a rainy day. Once again, I will lead with common sense, intellectual honesty, and answer every phone call and email quickly.

Vote wisely.
