

For Cotati City Council

Susan Harvey

Age: 68

Occupation: Cotati City Councilmember

I have been privileged to serve as your councilmember for 15 years, through very challenging times. Cotati weathered the economic downturn, fires, power shutdowns and a pandemic, still maintaining essential services.

Cotati, with its strong community values and small-town character, believes in self-reliance and supports funding essential services. We have seen the benefits of infrastructure improvements, maintaining local police, streamlined services, recreation programs and progress continues on economic development. I have worked to ensure reasonably priced reliable water sources, environmentally responsible waste solutions, updated water and sewer infrastructure. In addition, I have championed efforts to improve our roads and parks. I continue to ensure we have balanced budgets and a solid reserve for those unexpected events.

My husband Paul and I have lived in Cotati for 46 years because we love the unique character of Cotati. We raised our children here and enjoy sharing our community with our grandchildren.

In this rapidly changing environment, we need experience to keep our community moving forward. With your support, I'll continue working hard to protect our character while addressing affordable housing, engage our community, remain fiscally responsible and bring the right economic development to Cotati.

I would be honored to have your vote.
